

## SAT/ACT Tutoring

### Academic Background

Friedrich is a first-year at Harvard College '25 concentrating in computer science and economics. He scored perfect on the SAT, ACT, Math subject test, and Physics subject test. He also maintained a 4.0 GPA at the Boston University Academy (BUA) and graduated summa cum laude.

### Teaching Experience

Throughout high school, Friedrich has gained ample teaching experience. He served as a peer tutor for three years at his high school, where he helped fellow students with challenging homework assignments and preparing for their exams. He has also spent the past nine months consulting juniors and rising seniors on their college essays and applications.

On top of his experience in academic teaching, Friedrich also has a passion for teaching outside of the classroom. As the head delegate on my school's Model United Nations team, he mentored two classes of new delegates, teaching them public speaking skills, negotiation skills, and the rules of parliamentary procedure. Under his leadership, BUA's Model UN team was able to win their first-ever Outstanding

Delegation Award at the international Boston Invitational Model United Nations conference.

## **Teaching Philosophy**

I believe that anyone with reasonable baseline academic capabilities can achieve a very high score on the SAT and ACT as long as the highest level of attention is paid to details. Simply repeatedly doing practice tests is a waste of time and does not achieve the best results. Instead, a surgical approach to the SAT and ACT must be taken. Before any real work can be done, a student's specific weaknesses must be identified. While working on your strengths may secure a few additional points on the test, fixing your weaknesses will result in a much more dramatic score improvement. My job is to help turn a student's weaknesses into strengths in order to maximize his/her score in the most efficient manner possible.

## **Syllabus**

SAT:

### *1. Math:*

- Algebra
- Geometry
- Data Analysis

### *2. Reading:*

- Authorial Intention
- Analyzing word/structural choices
- Reading for key details/citing evidence

### *3. Writing:*

- Grammar
- Rhetorical techniques

ACT:

*1. English:*

- Text Organization
- Language Conventions
- Word choice
- Style/tone

*2. Math:*

- Algebra
- Statistics
- Geometry
- Modeling

*3. Reading:*

- Understanding key ideas
- Style and Structure
- Synthesizing ideas

*4. Science:*

- Data interpretation
- Scientific Investigation
- Evaluation of models and results

**Cost**

SAT:

\$125/hour for 5 sessions (\$625 total)

\$115/hour for 10 sessions (\$1100 total)

\$105/hour for 20 sessions (\$2100 total)

ACT:

\$125/hour for 5 sessions (\$625 total)

\$115/hour for 10 sessions (\$1100 total)

\$105/hour for 20 sessions (\$2100 total)
